- Bullnose/Square Edge Coping - It is best to order body and bullnose/coping pavers together and request them to be Made to Order for a good colour match from consecutive production dates. Allow up to 2 weeks for despatch of body and bullnose/coping together.
- Urgent orders can be supplied from current bullnose/coping stock with next day delivery (where colour matching is not crucial) but the manufacturer cannot guarantee colour matching to body pavers when using existing/coping stock, as the pavers may not be made at the same time. Different production dates can lead to significant and noticeable differences in colour due to variations in raw materials and conditions between batches.
- Always blend pavers from all available pallets when laying.
- We recommend Cleaners and Sealers for your pavers to keep them in good condition.
